

Operator	Trained staff	Description
Shona Boat Trips - https://shonaboattrips.wixsite.com/calftrips Port Erin	Chris Burton Standard	We operate from May to September around the south of the Isle of Man. We also land at the Calf of Man. The wildlife in this region is extensive, with seals, basking sharks, Risso's and Common Dolphins
Discover Diving - http://www.discoverdiving.im/ Port St Mary	Michelle Haywood Standard	<p>Discover Diving is the Isle of Man's only diving centre. Established in 2004, we moved to our current location in Port St Mary in 2008. Discover Diving is run by Steve Cowley and Michelle Haywood, who are both experienced divers and instructors.</p> <p>The Isle of Man is the first whole nation to be awarded <u>UNESCO Biosphere</u> status. Discover Diving is proud to be a Biosphere partner.</p>
Manx Whale and Dolphin Watch - https://www.mwdw.net Peel	Roy Maddrell Standard	Manx Whale and Dolphin Watch (MWDW) has been at the forefront of marine mammal science on the Isle of Man since 2006. We work voluntarily year round to ensure the safeguarding of whales, dolphins, and porpoises (cetaceans) in Manx territorial waters through non-invasive research and public awareness efforts.
The Venture Centre - https://www.venturecentre.im Maughold	Simon Read Standard	We are situated amongst the rolling farm land of the beautiful Isle of Man. Nestling close to the base of North Barrule and only five minutes from the secluded beach at Port e Vullen the centre is perfectly situated to provide an ideal venue for groups of all ages. We are recognised

		as one of the UK's leading providers of fun and engaging school adventure holidays.
<p>Adventurous Experiences - https://www.adventurousexperiences.com/ St Johns Visual impact www.vsuallimpact.im</p>	<p>Keiron Tastagh Standard and Adventure Kim Tastagh Adventure</p>	<p>Adventurous Experiences is an established Adventure Sports Centre, based from the family farm in the centre of the Isle of Man. Explore the coastline, viewing wildlife; unforgettable adventurous experiences through sea kayaking, coastering, gorge scrambling and family friendly adventures.</p>
<p>Gemini Boat Charter - http://www.geminicharter.co.uk/index.html Port St Mary</p>	<p>Bob Taylor Standard</p>	<p>The Gemini is a twin engine 35 foot catamaran which makes it an excellent stable platform for all types of trips.</p> <p>We have been operating the Gemini since 1992, during that time we have made many friends and have enjoyed hundreds of trips doing and seeing many wonderful things.</p>
<p>Dave's Waves Ltd www.daveswavesiom.com</p>	<p>David Wilson Adventure</p>	<p>Windsurf and SUP instructor. Around the bays of the Isle of Man you might see grey seals, basking sharks, Minke whales, harbour porpoises, oystercatchers and much more.</p>
<p>Saltworks SUP www.saltworks-sup.com</p>	<p>Michelle Stewardson Adventure</p>	<p>Saltworks SUP is an accredited Waterskills Academy (WSA) SUP school based on the Isle of Man. At our core we want to inspire people to get out and appreciate the outdoors, have fun and reconnect with our amazing island</p>

		<p>biosphere. With its rugged rocks, beautiful sandy bays and abundant marine life it is the perfect place for new adventures.</p> <p>Our key aim is to introduce people to one of the fastest growing watersports safely.</p> <p>Alongside our core sessions we also offer SUP Yoga, sunrise and sunset paddles, SUP safaris, SUP social paddles with our SUP Club all part of our Experience and Explore programmes.</p> <p>We are proud to be a Biosphere partner and partner with Plastic Planet running regular beach cleans and aim to minimise our impact by following leave no trace principles at all of our venues.</p>
<p>The Venture Centre www.venturecentre.im</p>	Luke Brammer	
<p>Manx Whale and Dolphin Watch www.mwdw.net 01624 610131</p>	Richard Coase Standard	<p>The Manx Whale and Dolphin Watch (MWDW) is a marine life science research organisation based in Peel on the Isle of Man. The MWDW has been at the forefront of marine mammal science on the Isle of Man since 2006. We work voluntarily year-round to ensure the safeguarding of whales, dolphins, and porpoises (cetaceans) in Manx territorial waters through non-invasive research and public awareness efforts.</p> <p>We are established primarily for research and education and do not currently “offer trips” to the general public. (There are boat operators on the IOM who offer sight-seeing trips and these can be found through an appropriate search on Google or here).</p>
